

If your child has any one of the following symptoms please keep them home.

 <p>Fever of 100 or higher</p>	 <p>Coughing, shortness of breath or difficulty breathing</p>	 <p>Vomiting</p>
 <p>Diarrhea</p>	 <p>If your child is feeling too ill to go to school</p>	 <p>The child or someone they have been exposed to has tested positive for covid-19 or is awaiting test results</p>

Please call the school nurse if:

- If your child's temperature is > 99 degrees so a temperature recheck can be done at school.
- If your child has been exposed to covid-19.

If your child has two of the following symptoms please keep them home.

- Sore throat
- Runny nose/congestion
- Chills
- New lack of smell or taste
- Muscle pain
- Headache
- Nausea

If you have reviewed the symptoms and your child is ready to go to school...

have them wash their hands and grab their mask and then head out to the bus!

By putting your child on the bus or transporting them to school you are indicating that you have completed a symptom check on your child and he or she is symptom free and ready for school.

If your child does become sick at school, please understand that you will be called to pick them up as soon as possible.

Thank you for helping keep our school community safe during these uncertain times!
